@ abdelaziz9278@gmail.com   📞 +20 114 268 1177   📍 Egypt   in Ahmed Abdelaziz   ⬡ AZIZ20035

EDUCATION

3th Year Student in Computer Science (GPA: 3.52 / 4.00)
**Assiut University**
📅 Sep 2021 – Jul 2025   📍 Assiut, Egypt

PROJECTS

Job Portal 2024
Github
- Job Portal designed to efficiently connect employers with job seekers.
- The project allows the Company to post new jobs and show the applications on any job.
- The project allows the user to apply on any job and follow the progress of his applications.
- [C#] [.Net] [OOP] [SQL server] [html] [Css]

Online Exams 2023
Github
- It's a simple MVC application that allows the users to create and start online exams.
- The user can show the grades of his exams and follow his progress in the previous exams.
- It's connected to a Google Spreadsheet and automatically updates its data.
- [C#] [.Net] [OOP] [SQL server] [html] [Css]

Parking Area 2023
Github
- It's a simple console application that shows the status of your garage.
- It allows the user to manage the garage by inserting or removing any vehicle from the garage.
- [JAVA] [OOP] [Data Structures]

SKILLS

Programming Languages And Technologies:

[C++] [C#] [Java] [Python] [.Net] [MySQL] [GitHub]

Development Approaches:

[OOP] [Data Structures] [Algorithms] [Database]

ACHIEVEMENTS

🏆 I participated in the Upper Egypt Collegiate Programming Contest 2 times:
2022: Ranked 39th out of 160+ teams.
2023: Ranked 25th out of 160+ teams.

🏆 I participated in PWF Programming-Warfare 2023 and advanced to the final onsite round in Upper Egypt's three-round contest, making a good rank among 300+ participants.

🏆 I participated in Juniors Phase 2 Winter Camp 2024 and received a medal for ranking 3rd out of 20+ trainees in Phase 2 training at ICPC Assiut University Community

</> Specialist at Codeforces: Ranked in the top 3% in Egypt from 10K+ programmers (Profile)

</> Solved more than 3K problems on various online judges (Codeforces, HackerRank, Leetcode, UVA, ...)

VOLUNTEERING

Member at ICPC Assiut Community
Facebook Page
📅 oct. 2022 – Present

Our community's primary aim is to enrich the programming, problem-solving, and algorithmic skills of students interested in Upper Egypt. Within this dynamic environment, I have taken on various roles:

- I served as an instructor for Newcomers, guiding students through foundational concepts.
- As a mentor for Newcomers and Juniors 1, I provided support and guidance tailored to each individual's needs.
- Also contributed as a problem setter and judge for contests, ensuring engaging and challenging experiences for participants.
